Architecture Marathon – 4 KIDS

It is time to take a completely new look at architecture and design! Young, or even very young speakers (aged 6 to 14) will be invited to the main stage of 4 Design Days to learn about what children think about the architecture that surrounds them, about items that are designed by adults and the appearance of towns and cities in which they live. It will be funny, but serious, too, as children, like nobody else, are frank in their praise, but merciless in pointing out errors made by us, adults, who create the space in which they live.
